UI Design: Figma, interface layout design, visual organization
Technical Skills: Database CRUD operations, website testing, troubleshooting, debugging
Tools: Microsoft Word, Google Docs, Google Sheets, Canva (basic)

Professional Experience

IT Intern (OJT) | ICT Office | General Trias City Hall, Cavite, Philippines | March 2025 - June 2025

Provided technical and administrative support to the Information and Communications Technology (ICT) Office of General Trias City Hall, assisting personnel with routine office tasks, digital file organization, data entry, document preparation, and basic computer-related activities.

- Assisted ICT personnel with daily technical and administrative tasks.
- Organized digital files and documents to support efficient recordkeeping.
- Assisted with data entry and document preparation while maintaining information accuracy.
- Supported office personnel with basic computer-related tasks and other assigned duties.

Technical Projects

Gender and Development (GAD) E-Learning System | PHP, MySQL, HTML, CSS, JavaScript, Bootstrap

Developed an academic capstone web application for a university Gender and Development e-learning workflow. Worked on PHP/MySQL functionality, database CRUD operations, user-facing pages, quizzes, certificate eligibility, and consultation appointment scheduling.

Pautos | Figma UI Design

Created UI design screens for the Pautos project using Figma. Organized interface elements and layouts to maintain a clear and consistent design. Specific screens and project functionality should be added once confirmed.

SmartVendo+ | Figma UI Design

Created UI design work for the SmartVendo+ project using Figma. Specific screens and design responsibilities can be added once confirmed.
